

To whom it may concern:

We are pleased to recommend D-Tech Consulting to any professional organization in search of an efficient and dedicated Contractor.

Recently we retained the services of D-Tech Consulting who supported us in a project we named "Operation Evolution". This project was centered on an internal office move which included moving 180 staff members, work stations, computers, and phones and required network cabling. D-Tech Consulting was instrumental in ensuring the success of the project including ensuring our goals were met under our strict deadline. Darryl Deen, head of D-Tech Consulting, exhibited exceptional project management skills and leadership abilities, which were inspiring. In all aspects of the project we were very pleased with the overall service.

We, at FinanciaLinx, appreciate the dedication and commitment of all the staff at D-Tech Consulting. We look forward to the opportunity to enlist their services once again.

Sincerely,

Lori Murtagh
Director, Human Resources
FinanciaLinx Corporation
